### FAQs

Q. What type of testing will be done?

A. Nasal swab (**PCR**) nasopharyngeal swab testing will be performed in order to determine the presence of COVID-19 only.

Q. What is the cost?

A. Your insurance will be billed for the cost of the testing. Most insurance companies will cover the cost with no copay requirement. Any portion of the cost not covered by your insurer will be the responsibility of the patient.

Q. What if I don't have insurance?

A. Those individuals verified as not having insurance will be tested at no cost as the CARES Act funding will cover those costs. In order to be verified, the patient will need to provide their social security number and date of birth.

Q. What if I don't have insurance and don't wish to provide my social security number and date of birth?

A. Those individuals not wishing to be verified can still have testing performed but will need to pay the full cost of testing - **\$100 (Cash or Credit Only)**.

Q. I have no symptoms, why should I get tested?

A. Many individuals who have contracted COVID-19 are asymptomatic or may have mild symptoms and may therefore unknowingly place others at risk.

Q. When will I get my results?

A. Results are generally returned within 48-72 hours. Those with Positive results will be contacted via phone call. You can also contact the number provided after 72 hours to get your results.
